Dr. Amanda Green Granted the Hospice Medical Director Certified® (HMDC®) Credential

Paris, Texas- July 2018 – Amanda Green, MD, FACP, HMDC, internal medicine physician and Chief of Staff at Paris Regional Medical Center (PRMC), was recently granted the Hospice Medical Director Certified credential by the Hospice Medical Director Certification Board. Dr. Green was recognized for her commitment to improving the quality of life by displaying professional competency in the hospice industry.

Hospice practice includes patient care, medication management, performance improvement, engagement in interdisciplinary group (IDG) activities, and much more. Professional certification affirms a knowledge and experience base for hospice physicians to display commitment to their career, dedication to patient and family care, and the sustainability of the hospice organization and industry. HMDC designation is granted for six years and is renewed through continued validation of knowledge and re-assessment.

Dr. Amanda Green graduated from Baylor College of Medicine in 1998 and completed her residency at Duke University Medical Center in 2001. She has been board certified by the American Board of Internal Medicine since 2001. She had served as Associate Medical Director of Cypress Basin Hospice for 5 years, and now serves as Associate Medical Director for Summit Hospice, Hospice Plus, and Heart to Heart Hospice. Her interest in hospice has grown as she has seen the improvements in quality and quantity of life that hospice can provide, and as inpatient hospice services have grown at PRMC.

The Hospice Medical Director Certification Board (HMDCB) serves as an independent, not-for-profit certifying body to administer a certification program for hospice medical directors and other physicians who provide hospice care for patients. The mission of HMDCB is to relieve suffering and improve quality of life by promoting the excellence and professional competency of hospice medical directors. For more information, visit www.hmdcb.org.

Information about the Hospice Medical Director Certification Board including a directory of certified hospice physicians is available at www.HMDCB.org.
